

SENIOR SOFTWARE ENGINEER

Abdur Rahman

+923171150595

qaziabdurrahman12@gmail.com

Karachi, Pakistan

Full-stack Software Engineer with strong experience building scalable web applications and integrating AI-powered features into real-world products. Proficient across React, Next.js, Node.js, Laravel, and modern databases, with hands-on experience delivering AI-driven chatbots, automation, analytics, and data-powered applications using Python and API-based model integration. Focused on clean architecture, performance optimization, and production-ready solutions.

WORK EXPERIENCE

Mavens Advisor ● Senior Software Engineer

FEB 2023 - PRESENT

Integrated AI and Machine Learning features into web applications using Python-based microservices built with Flask and FastAPI. Designed API layers to securely connect frontend applications with AI models and external inference services.

Developed intelligent system components such as chat-based interfaces, automated workflows, and data-driven features, improving application interactivity and reducing manual processing.

Worked with structured and unstructured data to support model inference, data preprocessing, and automation pipelines, ensuring reliable performance and scalability in production environments.

Collaborated on deploying AI-enabled features alongside existing Node.js and Next.js architectures, maintaining clean code standards, performance optimization, and seamless user experience.

Crea-Biz ● Frontend Wordpress Developer

JUNE 2022 - OCT 2022

As a Front End Developer at Crea-Biz, I crafted visually appealing websites using HTML, CSS, and JavaScript for seamless user experiences. Leveraging Bootstrap for responsive design, I specialized in WordPress customization, tailoring themes and plugins to meet client needs. Collaborating closely with cross-functional teams and clients, I ensured consistent, user-friendly websites while providing ongoing support for maintenance and updates.

EDUCATION

Mohammad Ali Jinnah University

May 2021 - Feb 2025

BS Software Engineering

-Confidently navigating the trajectory of my career, I possess a clear vision and determination to excel in the dynamic landscape of my chosen path.

Aptech Pakistan

July 2020 - December 2020

Web Development

Aptech's Web Development course graduate, skilled in HTML, CSS, and JavaScript, ready to craft responsive websites. Bringing a strong foundation and practical expertise to contribute effectively to web projects.

SKILLS

Frontend: React.js, Next.js, TypeScript, Tailwind CSS, Bootstrap, HTML5, CSS3, Responsive UI, accessibility, performance optimization

Backend: Node.js, Express.js
Laravel, PHP
RESTful API design, authentication, authorization

Databases: MongoDB, MySQL, PostgreSQL
Data modeling, indexing, query optimization

AI / Machine Learning: Python, Flask, FastAPI
AI model integration (LLMs, APIs)
Data processing, automation workflows
AI-powered features (chatbots, analytics, recommendations)

Tools & Platforms: Git, GitHub, GitLab, Bitbucket
Docker (basic), Vercel, Figma, Adobe XD
