Abdur Rahman

03171150595

qaziabdurrahman12@gmail.com

Karachi, Pakistan

Experienced software developer proficient in HTML5, CSS3, JavaScript, ReactJS, Next.js, React Native, jQuery, Bootstrap, PHP, Laravel, CodeIgniter, Express.js, Java, Python, Git, GitHub, Figma, Adobe XD, SQL, MySQL, Firebase, MongoDB, OOP, data structures, algorithms, and MVC architecture. Passionate about contributing to innovative projects, solving complex problems, and continuously expanding expertise in software development.

WORK EXPERIENCE

Mavens Advisors • Software Engineering

FEB 2023 - NOW

Led end-to-end development and design for web and mobile projects, combining UI/UX expertise with app development.

Created responsive, accessible web designs using HTML5, CSS3, JavaScript, ReactJS, Next.js, WordPress, jQuery, and Bootstrap. Built cross-platform mobile apps with React Native and integrated third-party APIs for enhanced functionality.

Developed scalable back-end solutions with Node.js, Express.js, and Next.js, ensuring efficient server-side rendering and API performance. Leveraged TypeScript for type-safe, maintainable codebases, delivering high-quality, user-focused applications.

Crea-Biz • Front End Developer

JUNE 2022 - OCT 2022

As a Front End Developer at Crea-Biz, I crafted visually appealing websites using HTML, CSS, and JavaScript for seamless user experiences. Leveraging Bootstrap for responsive design, I specialized in WordPress customization, tailoring themes and plugins to meet client needs. Collaborating closely with cross-functional teams and clients, I ensured consistent, user-friendly websites while providing ongoing support for maintenance and updates.
