We're writing to you about the application to register your client, CERATHRIVE GLOBAL LTD, for VAT before they start making taxable supplies.

We can confirm that your client has been registered with effect from 24 February 2025.

Their VAT registration number is 496 3611 61.

Although their registration gives them the status of a taxable person, please note the following conditions about repayment of VAT as input tax and change of circumstances.

Repayment of input tax

Before their business starts to make taxable supplies, they may provisionally claim repayment of VAT they're charged as input tax. They can find the general rules about VAT, including input tax, in VAT Notice 700 and about partial exemption, in VAT Notice 706. Go to www.gov.uk and search 'VAT notices'.

Change of circumstances

If your client no longer intends to make taxable supplies, or there's any other change of circumstances affecting their VAT registration (including any delay in starting to make taxable supplies), they must tell this office in writing within 30 days of the change.

They can find more about this at www.gov.uk/vat-registration

A Certificate of Registration showing full registration details will be available to view on your client's Business Tax Account shortly.

Using a Business Tax Account to access the VAT online service

A Business Tax Account is an online account that brings together all your client's business taxes in one place. They can use it for tasks like making returns and payments. They can set up their online account on or after the date their VAT registration becomes live. To use it for VAT, they should:

1. Go to GOV.UK and search 'business tax account'.
2. Sign in using your HMRC sign in details – you can create these if you don't already have them.
3. Choose 'VAT and VAT services'.
4. Choose 'VAT' as the service they want to add.
5. Read the guidance page and press continue.
6. Enter their VAT number, the date we've registered them from and the postcode of where their business is registered for VAT.
7. Confirm if they are currently submitting VAT returns, if not they may be asked for the acknowledgement reference that relates to their application. If they have already submitted VAT returns enter their latest VAT return total and the last month of their latest VAT accounting period.

Your client will then have access to the VAT online service, where they can check when their first VAT return is due. They can also manage their payments, set up a Direct Debit and provide bank account details to receive repayments.

If the application included an enquiry about Economic Operator Registration and Identification (EORI) number, we'll send more information about this separately.

We are unable to accept the bank details that your client has provided. The bank account must be held in the UK and the account name must match the name shown on their VAT registration. The bank account name for:

- **corporate bodies** must match the name of the corporate body or their trading name, if applicable – we will not accept an individual's bank details or a director's personal account
- **sole proprietor** must match the name of the sole trader or their trading name, if applicable – we will not accept a joint personal bank account for a sole proprietor
- **partnerships** must be in all the partners' names or their trading name, if applicable
- **other types of business** must be in the name of the organisation which is applying to register or their trading name, if applicable

We've updated the VAT register with all of the other details you have provided.

For details on how to update your bank account details go to www.gov.uk/vat-registration/changes-to-your-details

What to do next

Now that your client is registered for VAT, they may find it useful to check out our VAT information. For general information about VAT, go to www.gov.uk/topic/business-tax/vat For guidance on record-keeping, go to www.gov.uk/vat-record-keeping

By law, your client must send their VAT Returns to us online or by compatible accounting software and make any payments due to us electronically. To find out about completing and submitting returns, go to www.gov.uk/vat-returns

For more details about payments, go to www.gov.uk/pay-vat

If you will be completing and submitting VAT Returns to us on your client's behalf, you will have to create an agent services account before you do this. For more details, go to www.gov.uk/guidance/get-an-hmrc-agent-services-account

If your client uses a tax adviser, agent or someone else to do their accounts and this person is not the individual who is authorised to submit VAT Returns for them, but they're happy for them to speak to us on their behalf on VAT matters, they must authorise them to do so. For more details about this, go to www.gov.uk/appoint-tax-agent
