If this is a margin account and we maintain a special miscellaneous account for you, this is a combined statement of your general account and special miscellaneous account maintained for you under Regulation T issued by the Board of Governors of the Federal Reserve System. The permanent record of the special miscellaneous account as required by Regulation T is available for your inspection at your request.

The per annum rate of interest charged on the debit balance in your account is shown on this statement. This rate may change from time to time in accordance with fluctuations in interest rates. Interests computed from the 16th day of the preceding month to the 15th day of the current month except in December and January. The charges include the last day of the year and, in January, the interest is calculated from the first day of the month. The interest is based on the average daily net debit balance in your account with us and for the actual number of days based on an interest year of 360 days. When calculating margin interest, free credit balances in all accounts will be offset against any debit in the margin account and the interest will be charged on the net debit balance.

Customers with securities on loan have agreed to participate in the Fully-Paid Securities Lending program ("FPSL") and should be aware that shares on loan are not covered by SIPC or FDIC. The provisions of the Securities Investor Protection Act of 1970 ("SIPA") may not protect the customer with respect to the customer's securities loan transaction and that the collateral delivered to the customer may constitute the only source of satisfaction of the member's obligation in the event the borrower fails to return the securities. Other risk and characteristics of participation in the FPSL program include, but are not limited to: 1) the loss of voting rights, 2) apex's ability to use the loan securities for additional loans and apex's ability to earn a spread or and/or other profit, 3) lack of guarantee of receiving best rates, 4) risks associated with each type of collateral, 5) that the securities may be "hard-to-borrow" because of short-selling or may be used to satisfy delivery requirements resulting from short sales, 6) potential adverse tax consequences, including payments deemed cash-in-lieu of dividend paid on securities while on loan, 7) apex's right to liquidate the transaction because of a condition of the kind specified in FINRA rule 4314(b), and 8) the factors that determine the amount of compensation received by apex or paid to customer in connection with the use of the securities borrowed from the customer lack of interest on cash collateral. For specific details, please consult the FPSL Master Securities Lending Agreement and Important Disclosures Regarding Risks and Characteristics of Participating in FPSL documents available on Apex's website at: <https://apexfintechsolutions.com/legal/disclosures/>

Cash securities collateralizing shares are held at JP Morgan Chase & Co. Please consult the Fully Paid Lending Trust Agreement available on Apex's website at <https://apexfintechsolutions.com/legal/disclosures/> for additional details.

MARKET VALUE:

The value shown for each security position in your portfolio is obtained from third-party pricing services based on closing prices, bond yields, and/or mean bid and ask on the last day of the statement period, when available. For certain illiquid or infrequently traded securities, these values may be estimates that do not reflect actual market value or the amount you would receive upon sale. Actual market value may differ, particularly for inactive or infrequently traded securities, or those for which a market quotation is not available. Some securities may be listed as "Unpriced" because no reliable market price could be determined. Both unpriced securities and those showing estimated values may not be readily marketable, may be illiquid, and you may not be able to sell them at the stated value, or at all. For updated quotations, please contact your broker or bank. For foreign securities, market prices shown are subject to currency conversion rates and both prices and exchange rates can fluctuate, impacting the actual value or liquidity of your position.

Bond prices might differ from current market quotes. Similarly, bond ratings may differ from current actual ratings. Computerized pricing and rating services are often unable to supply us with up-to-the-minute information. Your broker or bank will be pleased to obtain a current quotation upon request.

ESTIMATED ANNUAL INCOME:

The current annual dividend or bond interest rate for each security held, if available from quotation services. The rate is multiplied by the number of shares or par value of bonds to determine estimated annual income.

FDIC INSURED DEPOSIT BANK BALANCES:

Purchases, reinvestments and liquidations of money market funds, plus redemptions of money market fund checks.

Order Routing:

The SEC requires all broker-dealers that route orders in equity securities and options to make available quarterly reports that present a general overview of their routing practices. The reports must identify the significant venues to which customer orders were routed for execution during the applicable quarter and disclose the material aspects of the broker-dealer's relationship with such venues. In addition, the Rule (SEC 606) requires broker-dealers to disclose, on customer request, the venues to which the individual customer's orders were routed for the six months prior to the request, and the execution time for the orders that were executed. For further information, please contact your broker or financial advisor.

PLEASE RETAIN THIS STATEMENT AS IT WILL BE HELPFUL IN PREPARING YOUR INCOME TAX RETURNS AND MAY BE NEEDED ALONG WITH SUBSEQUENT STATEMENTS TO VERIFY INTEREST CHARGES IN YOUR ACCOUNT.
