About activity changes

You are only charged for members and multi-channel guests who are active on Slack. Single-channel guests are free.

⊖ means:

- a member hasn't used Slack in over 28 days (their account still exists)
- a member was deactivated by an owner/admin (their account is closed)

⊕ means:

- an inactive member has started using Slack
- a member has been added by an owner/admin

How pro-rata pricing works

The pro-rata price is based on the days remaining on your subscription. For example, if a new member or multi-channel guest joins your team or becomes active with 16 days left on your monthly subscription, we multiply \$US8.75 (the monthly member price) by $16 \div 31$ (the days remaining divided by the total number of days on your subscription) to calculate the pro-rata price. If a member or multi-channel guest is removed or goes inactive with 16 days left on your subscription, we multiply \$US8.75 by $16 \div 31$ and credit that back to your account.
